Our car-load of machines has arrived, and we are making people happy (by having a nice new "Baby" in the house) as fast as possible. The DeLaval machines have always stood at the head. They did not receive a gold or silver medal at the Paris Exposition but the Grand Sweepstakes Prize over all others. The DeLaval machines will speak for themselves. If any one thinking of buying a separator will drop us a line we will set them up a machine. They may set in all the other makes they care to, besides it. Try them to their satisfaction. If they cannot demonstrate for themselves that we can give them more capacity, more durability, and more value for their money than they can get in any other machine we will take ours away as cheerfully as we set it in. We set no traps for anyone. We do not ask you to sign a contract before we set in a machine.

C. F. SMITH, Morrisville.

We wish to say a word and offer some advice to maple sugar makers in Lamoille county. To all that ever made syrup we advise doing so this season instead of putting into tub sugar. As you can all see from experience the past season every one wanted to make tub sugar with result of prices falling off from 10 cents to 6 and 7 cents. We will buy your syrup this spring in bulk furnishing storage while making. Take it in any time you see fit and pay cash, giving you as much as highest market price of tub sugar in proportion, you saving by making syrup, fuel, boiler and time sugaring off, tubbing and cost of package for tub sugar. We will pay you all your syrup is worth and fully as much as you can realize in any other way. Call at the former L. B. Boynton & Co. store next to Post Office, and talk the matter up with us before sugaring sets in and take home storage cases or bins. We want 10,000 gallons of syrup. L. B. Boynton or N. B. Blair will talk with you in regard to prices etc. at the MAPLEWOOD SUGAR AND SYRUP COMPANY, Morrisville and St. Johnsbury.

A party of Morrisville citizens, who might properly be termed the "big four," with the possible exception of one of the party, who is a "little Greene," made a pilgrimage to West Hill recently, incidentally calling upon Eli Gile. The table is 2x5, of solid oak and makes a fine addition to the pulpit furniture.

N. D. Bundy's dog "Spot" is no more. He was wounded last Friday by George Brill, who claims the dog bit his boy and he had notified its owner to "take care of him." Nelson evidently didn't take the care that Brill wanted, and so Friday noon Brill met the dog, pulled out his gun and blazed away four or five times, one shot hitting him in the hip. Nelson kept the dog a day or two and then had him killed. Amicable relations are therefore once more restored between Brill and Bundy.

The Sheriff Collared Him.

When Prof. Ingalls took the train for St. Johnsbury last week he little knew that he was to be intercepted at Morrisville by Sheriff Towne. He was all the same. When the train reached Morrisville the Sheriff boarded it and followed by a couple of men went up to Ingalls and putting his hands on the Professor's shoulder said, "I have a warrant for you."

The Prof. was somewhat startled to be thus accosted and not until the Sheriff addressed him the second time did he "come to." With a smile that was "childlike and bland," he asked Towne what he wanted. Towne, with a firm grip on his man, turned and inquired of the men who had followed him into the car if this wasn't the man. "Yes," they replied very decidedly. It began to look quite serious for Ingalls. The anticipated pleasure of spending Sunday with his wife was clouded by the thought of lodging in the "cooler"; why he should be thus taken in was also very mysterious to him. Finally when asked if he was traveling for the Page Belting Company, he saw that a mistake had been made and after convincing Towne that he was none other than Ingalls of Hyde Park, with whom Towne is quite well acquainted, the sheriff saw his mistake and with profuse apologies left the car. It seems that the fellow they wanted "had light hair, wore eye glasses and had on a light overcoat and a light hat"—so did Ingalls—hence the mistake. The "original" chap was on the train but he left the car at the other end from which the sheriff entered. It was a narrow escape for Ingalls and a huge joke on Towne.

Perkins, a medical student, and Miss Bruce, a trained nurse, were also present. The operation was very successful and the physicians say the boy's chances for recovery are more than even. The patient stood the operation remarkably well.
